

Dear Governor Hickenlooper, Attorney General Suthers, and Members of the State Board of Education:

Now that the trial judge in *Lobato* has ruled that Colorado's public education system is "irrational, arbitrary, and severely underfunded," you have a critical decision to make:

You can either work with the legislature in the interest of Colorado students to make the system constitutional as soon as possible, or you can make the problem even worse by kicking it down the road a year or two.

As Colorado taxpayers and public education supporters, we ask you to stop wasting our tax dollars defending an indefensible school funding system.

We ask that you take into consideration those whom you represent: the children, parents, businesses and citizens of Colorado who all depend on a quality public education system.

Please do not appeal the Lobato decision. Enforce it. Our children have already waited far too long for a school funding system that makes it possible for *every* child to succeed.

Sincerely,
