*Attend Lobby Day*

*Meet with your legislator*

*Attend trainings*

## Advocacy

*Join our Action Team*

*Request a presentation*

*Become a trained speaker*

*Share your story*

**Correcting Colorado's chronic underfunding of public schools requires advocates like YOU taking action across the state. Here are some example for how to lift your voice as a public education advocate and create positive change for students and teachers in Colorado.**

### Lens

Promote adequate, equitable sustainable funding

### Policy

Support all legislation that adds funding without new mandates and doesn't take dollars from other students/programs

### Reality

The needs outstrip the current budget (especially in light of other underfunded needs)

**As we focus on the legislative session, here are some key points to keep in mind. Join our Advocacy Action team to stay up to date on opportunities to take action and advocate for public education**

**Vision 2020 is working to address some, or all, of TABOR's provisions.**

Voting requirements

Revenue and spending limits

Limits on certain types of taxation

**Ultimately the decision to change Colorado's tax structure lies in the hands of the voters. Beyond the legislative session, Vision 2020 is working to create a structural solution for Colorado's funding problems.**
